

IRA FINANCIAL DISCLOSURE

The term IRA will be used below to mean Traditional IRA, Roth IRA, and SIMPLE IRA, unless otherwise specified.

The financial organization should complete the financial disclosure using Method I, Method II, or Method III. If the growth of the IRA can reasonably be projected, use either Method I or Method II. The account values projected using Method I or Method II must be reduced by all applicable fees and penalties. If annual fees are assessed, such as an annual service fee, use Method II. If no projection of growth of the IRA can reasonably be shown, use Method III.

METHOD I Growth can be projected (Do not use Method I if an annual fee is charged. Instead, use Method II for financial projections.)

Your Age on Your Birth Date This Year _____ Length of Time Deposit (If applicable) _____

The charts below give projections of the value of your IRA by showing the amount available at the end of each year. These projections assume an interest rate of .25%, compounded annually. If you have invested your IRA in a time deposit, a loss-of-earnings penalty may be charged against a withdrawal before maturity. A transaction fee may also apply to your IRA.

The Regular Contribution chart assumes that an annual contribution of \$1,000 is made on the first day of each year. The Rollover, Transfer, or Conversion* chart assumes that a one-time deposit of \$1,000 is made on the first day of the first year.

Indicate the projected account value for each of the years, taking into consideration any applicable loss of earnings penalty or other fees assessed if the IRA owner received a distribution at the end of the year for which the projection is being made. First, circle the year-end projected IRA value that is applicable for each of the first five years. Next, circle the applicable IRA value for the years in which the IRA owner will attain ages 60, 65, and 70.
